

Think About It!

Each month your child will be given a broad topic to think about. The topic and due date, except for the first one, will appear on the bottom of the grade sheet from the previous month. Your child will have three weeks to complete each project. The product and presentation should look like you spent the entire three weeks working on it. The projects are always due the morning of the due date. Late projects will not be allowed to be presented orally, which will result in a grade no higher than 74%. An example grade sheet is on the back for you to view.

Below is a list of products that could be created, but you are not limited to only these. The possibilities are pretty endless.

fact file	puzzle	chart	debate	
map with legend	game	collection	graph	
advertisement	skit	puppet	photographs display	
paper mache	diorama	comic strip	poster	
finished drawing	music	song	pamphlet	Power Point
interview	report	sculpture	pop-up book	
flip book	labeled diagram	painting	model	mural
museum exhibit	needlework	rebus story	brochure	
newspaper story	demonstration with write up	board game with pieces		

Remember to practice, practice, practice your presentation for the class.

Characteristics of a good...

- Speaker- *speaks clearly * stands up straight *doesn't cover his/her face
*looks at the audience *speaks loudly enough *avoids saying "umm", "ah"
* is fully prepared
- Speech- *makes sense *is well organized *is well developed with details
*sticks to the topic *is interesting
- Listener- *looks at the speaker *claps appropriately *doesn't talk *pays attention
* doesn't make fun of anyone
